Potluck Lunch

(Bring a dish of food of your choice for everyone to enjoy.)

**Friday, 1-18-19
10:00-3:00**

Come to **Mose Yoder's** house.

1716 St Hwy 11B, Potsdam NY 13676,

On the corner of 11B and Connor Rd about 8.5 miles from
Potsdam. His driveway is on Conner Rd.

Call Martin's Farm Supply if you have questions: 315-265-4180

Suggested Corn Seed Varieties

Northeast (NY, MA, VT, NH)

Silage-

- 21L90- Strictly silage, Leafy, floury grain, excellent milk per ton on test (85 day)
- 23A71- Performs well in fertile soils, very good seedling vigor in cool soils, top quality silage in a 86 day corn (86 day)
- 27B16 & 33A16- Very high yielding, heavy ears, Good dual purpose corn, will respond well to higher fertility (88 day & 92 day)
- 34C17- PROVEN time and time again to have great yields in unfavorable conditions, Good ear flex, excellent seedling vigor and growth (93 day)
- 43L96- Tall leafy, low lignin, silage only, highly digestible silage with great milk per ton testing (98 day)

Grain-

- 07B98- New variety with great yield potential in northern climates, good "stay green" (78 day)
- 21B11- New variety with excellent seedling vigor, Very good yield potential (85 day)
- 26B78- A great corn that produces long girthy ears, husk separation to speed up grain dry down (88 day)
- 34C17- PROVEN time and time again to have great yields in unfavorable conditions, Good ear flex, excellent seedling vigor and growth (93 day)
- 38G54- Good yielder, medium statured plant that stands well in fall, Good dry down (96 day)
- 49K70- Reliability in a great yielding corn, good stress tolerance, slow dry down (103 day)

Prices going UP and UP and UP

The prices of things goes up and up and up. Why is it?

The rate of inflation for 2018 on the USA dollar is about 2.5%. The cost of living for 2018 is estimated to rise 2.8%. If you bought a \$100 item in 1913, it would cost you about \$2545.84 today. If you bought a \$100 item in 2000, it would cost you about \$146.36 today. If you bought a \$100 item in 2017, it would cost you about \$102.82 today.

So are prices going up and up and up or is your money getting worth less and less and less? This is very important for you to realize.

I thought Vermont Compost was unreasonable and greedy because they have been going up and up with their prices every year. I thought someone could soon compete with them and make out really good. But then I realized their rate if increase is about the same as inflation. The cost of their product is really close to the same as it was! If you have cash stored under your bed, it's losing value every year it sits there. If you work for \$10/hour year after year, or if you charge \$3/qt for your strawberries year after year, or you get paid \$30/100# for your milk year after year, you really

are getting paid less and less.

This inflation game is played by Big Brother. It's a slick scam. I want no part in promoting it. However, that's way beyond our control. We need to relate to it properly and not feel guilty to charge more and more and pay more and more. We are only keeping in tune with our surroundings.

I pray that God blesses us
with his curses, so that we
can be formed into His image
and purified.

Then we can be with him for
eternity.
